

Sustainable transparent **Solution for food packaging market**

High crystalline homopolymer that features

- Unique set of properties
- **Stiffer** than a standard Homopolymer
- **Clear** like a Random copolymer

F520HC

Random PP

High Crystallinity Transparent Polypropylene

- F520HC delivers a lightweight clear packaging that can be fully recycled

Sustainability and Mass Balance

- Braskem offers the possibility to enhance the sustainability of the packaging using bio-attributed/ circular-attributed sources
